SYNOPSIS OF THE PROJECT

1. Project Title: "Life: Social Media Platform"

2. Introduction: "Life" is a social media platform designed to connect individuals worldwide. Users can create accounts, log in, and sign up to access various features. The platform allows users to post updates, like and comment on posts, upload photos, and engage in real-time chat with other users. Additionally, the platform provides status indicators to show users' online or offline presence.

3. Hardware Requirements:

❖   Processor   –   intel®,core™i3,

❖   Hard Disk   –   50GB HDD or above

❖   Memory   –   512 MB RAM or more
